

NABBA AT WORK

National Association of Barber Boards of America's 2015 February winter conference meeting in Tampa Florida was a busy time for executive officers and delegates from around the country in discussing many issues of legislation and education in the barbering profession. Everyone is working hard and will be looking forward to the September 2015 National Conference in Phoenix Arizona where the first days educational format involving regional school owners, instructors, vendors and national noted presenters will assist in raising the bar in barbering.

The Planning of a National Conference takes shape with total team building, cooperation, and razor sharp decision making. Here, Executive Officer Charles Kirkpatrick, President Sam Barcelona, Parliamentarian Theresa Iliff, and the team take a call from BarbInc Web Master Dale Dowdie for updates on the new NABBA website.

THERE CERTAINLY IS A LOT TO SEE AND DO IN TAMPA... ESPECIALLY.....THIS!!
